TOPICS AND INVESTIGATIONS

Representing everyone!

Australia is a representative democracy. The Australian Constitution provides the framework for our government. The democratic principles of representation are protected under the Australian Constitution. Included in the provisions of the Constitution is the right of individuals to be represented at the federal level and to participate in the choosing of representatives.

Representing everyone! provides students with the opportunity to explore how individual citizens are represented at the federal level.

The topic contains two investigations:

How do you have your say?

How are we represented?

These investigations explore the federal arrangements created by the Australian Constitution, how individual citizens are represented at the federal level through different voting and electoral configurations, and the referendum process required for constitutional change.

Introductory activity

RESOURCES

Photos/illustrations(objects representing the Constitution, Parliament House, the Senate, House of Representatives, laws (Electoral Act), a referendum, elections, Member of Parliament, enrolment form, ballot paper/box seven large sheets of poster paper, extra seven sheets for summary statements

Divide the class into seven groups and allocate each group a photo and poster paper. Ask all groups the following questions: What does this image represent? What do you know about it? What questions does this image raise? Allow enough room for all groups to record their responses under each heading.

Inform students that they are to discuss each image and record their responses to the questions. Rotate each group to add their responses. Draw the class together to discuss responses. To facilitate discussion ask one group to read out or summarise recorded responses from one of the posters.

Some questions to consider are:

> Do we agree on what the image represents?

> What do we know about (the image)? Does anybody disagree with this information? Why? (Any incorrect or queried responses should be transferred to the ‘questions raised’ heading.) Is there any other information that you would like to add?

> What were the questions raised about (the image)? Can you think of others to add?
A VOTE FOR THE ENVIRONMENT
A large amount of cardboard equipment and paper materials is produced for each federal election. Whenever possible, the AEC uses cardboard and paper equipment manufactured from recycled materials that are in turn recycled or reused.
Investigation
How do you have your say?

In this investigation students examine the federal arrangements created by the Constitution and compare the different voting and electoral configurations used to facilitate representation in the House of Representatives and the Senate, and in the referendum process.

THE INVESTIGATION AT A GLANCE

| Background briefings for teacher reference | Australian Electoral Commission; Constitution; Electoral division; Full preferential voting; House of Representatives; Referendum; Senate |
| Suggested classroom teaching time | Activity 1: How are we represented in Federal Parliament? (40 minutes)  
Activity 2: How are Members of Parliament elected? (40 minutes)  
Activity 3: Are there other ways to have your say? (40 minutes)  
Activity 4: How do referendums help decision making? (80 minutes) |
| Indicators of student achievement | Compare voting procedures for the House of Representatives and the Senate  
Understand the differences between Senate and House of Representatives electorates  
Explain how the citizens of Australia can alter the Constitution by voting in a referendum |

FROM THE MARGIN

SWINGING VOTERS
Swinging voters do not hang from the trees or on a trapeze! These are voters who tend to vote for different parties at different elections. These voters are in a minority as most people tend to vote for the same party at each election.

Fig 16: A busy polling place on election day
Gathering information

Explain to students that Australia is a representative democracy. This means that its citizens choose representatives to make the laws on their behalf. Through provisions made in the Australian Constitution, there are two houses in Federal Parliament: the House of Representatives and the Senate, which make the laws which govern Australia. The members of both these houses are elected by the citizens of Australia.

Provide students with website addresses, election results maps or hard-copy information showing electorates and members of both houses of parliament. Ask students to investigate the number of seats in the House of Representatives and Senate. Instruct students to record their findings in a table.

Identifying and analysing

In pairs or small groups ask students to analyse their findings for commonalities and differences between the states and territories for both the House of Representatives and the Senate, and to record their findings.

For example: NSW has ... members in the House of Representatives. South Australia has ... There are different numbers of members for the House of Representatives for each state and territory. However, there is the same number of senators from each state and from each territory. All states have 12 representatives and each territory has two representatives in the Senate. Although each state has a different number of members in the House of Representatives, they have the same number of senators.

Presenting findings

Draw the class together and discuss this finding. Summarise students’ findings on poster paper or the board.

Ask students to question and hypothesise about the reasons for commonalities and differences. Add these questions and hypotheses to the summary.
Gathering information

Explain to students that both houses of parliament use full preferential voting to elect representatives. Electors number the candidates in order of preference. The houses differ in that the House of Representatives is a single-member system and the Senate is a multi-member system. These arrangements have been set out in the Australian Constitution. The Australian Electoral Commission (AEC) conducts elections for both houses.

The House of Representatives is often called the ‘people’s house’. The 150 members of the House of Representatives are chosen from each of the 150 electorates in Australia. These electorates are population based, and within each state or territory electorates have similar numbers of voters. For each member to be elected they must receive an absolute majority of the formal vote, over 50%. For example, if an electorate has 88368 electors who voted formally, a candidate must receive 44185 votes to be elected. These may have been gained by a candidate as the result of first preference votes only or after the distribution of further rounds of voter preferences.

Demonstrate this to the class on the board. Also direct students to explore the Animation Counting Your Vote.

Provide students with lists indicating the number of students in each class at a year level or in whole-school year levels. Using the school as an analogy, explain to students that each class will be a single-member ‘electorate’.

Instruct students to work out how many votes a candidate would require to be elected. For example, a class of 24 students as an electorate would require a candidate to receive 13 votes to become the member for that electorate. In a class of 21 electors, 11 votes would be required for election, assuming that all class members vote formally. Students can record their results in a table like the one below.

<table>
<thead>
<tr>
<th>Class</th>
<th>Number of electors</th>
<th>Votes required by candidate</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Check student responses.

Explain to students that each state and territory is an electorate in the Senate and voters choose senators to represent their state or territory.

The Senate is often called the ‘states’ house’. Each state, regardless of its size or population, is represented by the same number of senators to ensure equal representation.

FROM THE MARGIN

DONKEY VOTE

Some voters number the candidates in the order that they appear on the ballot paper, not because it reflects their real choice, but because it is the easiest way to cast a formal vote. Until 1983, candidates were listed in alphabetical order on ballot papers. This gave candidates at the top the ‘donkey vote’ advantage – estimated to be 2–3% of the vote. (Jaensch, D, Election: How and Why Australia Votes, Allen & Unwin, 1995, p 47)
The boundaries of each state or territory form an electorate and people voting in those eight electorates elect a group of people to represent them. There are 12 senators for each state; the Australian Capital Territory and the Northern Territory are each represented by two senators. There are 76 senators in the Senate.

A proportional system of representation applies to the Senate. Under this system candidates must gain a specific proportion of the electorate’s (the state or territory) votes – a quota – to be elected.

The quota is worked out by dividing the total number of formal ballot papers by one more than the number of vacancies to be filled and by adding 1 to the result:

\[
\text{number of formal votes} \div (\text{number of vacancies} + 1) + 1 = \text{quota}
\]

For example: Three senators are to be elected and the total number of formal votes for the state is 2,400.

Therefore the quota = \(\frac{2,400}{3+1} + 1 = 601\)

Therefore, for a candidate to be elected as a senator they must receive 601 votes. This may be through first preferences or by a complicated distribution of preferences until a candidate has received the quota. Demonstrate this to the students and also allow them to again view the Animation Counting Your Vote.

Using the selected lists, inform students that the whole year level or school (depending on what was used in the first section of this activity) will be the electorate (state) and that three representatives need to be elected. Explain that other schools (states or territories) would form other electorates.

Using the quota formula, ask students to work out how many votes each candidate would require to be elected. Assume that all members of the electorate will vote formally.

Record as follows:

<table>
<thead>
<tr>
<th>Number of electors</th>
<th>Votes required by candidate</th>
</tr>
</thead>
</table>

Check students’ responses.

**Identifying and analysing**

Discuss how the different electoral configurations of the same population provide us with representation. Are you represented in both systems? How are you represented? Review the previous discussion and hypotheses in Activity 1.

Were the questions answered and were the hypotheses correct? What needs revising?

Summarise discussion points.

**Presenting findings**

Instruct students in pairs or small groups to visually represent the electoral configurations of the school – as single-member electorates and as a multi-member electorate. For example: 12 classes, 12 single-member electorates, with 12 representatives; total number of students in 12 classes as one multi-member electorate with three representatives. Allow students to be as creative as they wish, as long as the information is accurate and able to be interpreted by others. Display visual representations.

![Fig 17: A sample ballot paper for the Australian Senate](image-url)
ACTIVITY 3
Are there other ways to have your say?

FOCUS QUESTIONS
What is a constitution?
How is the Australian Constitution changed?
What is a referendum?
What voting system is used in referendums?

RESOURCES
• BLM 1 Referendums – double majority
• BLM 2 Referendum maps of Australia
• Referendums
• Interactive Quiz 1 – Referendums – Do you get it?

Gathering information
Provide students with a copy of BLM 1.
Explain that the only way that the Constitution can be altered is by the citizens of Australia voting to change it. Alterations cannot be made by the Governor-General, the Prime Minister, the Commonwealth Government, groups of members of parliament, lobby groups, or business. The Australian Constitution outlines these procedures and the voting system in section 128. To become law, each proposed change to the Constitution must be approved by a ‘double majority’ of electors voting for the proposed change. Referendums ask the voters to write ‘Yes’ or ‘No’ to the proposed alteration.

Discuss the information on BLM 1. Check for understanding by asking, for example, if a referendum would be passed if 45% of the national population voted ‘Yes’, and the majority of voters voted ‘Yes’ in two states? Give a range of examples asking students to justify their responses.

Identifying and analysing
Provide students with BLM 2.
Instruct students to use information from the AEC website on referendums from 1901–1999 to research three constitutional referendums. Information could include proposed alterations, which states voted ‘Yes/No’, national ‘Yes/No’ votes and whether the proposed alterations were passed. Students could graph the ‘Yes/No’ votes by national and state results. Ensure that students choose a range of referendums. Present information pictorially on BLM 2 with accompanying statements.

Presenting findings
Cut out the maps of the completed BLM 2 and ask students to classify each example under the headings of ‘Approved alterations – Yes’ and ‘Not approved – No’.

Display and discuss:
> Is it easy to change the Constitution?
> How important are the states in such decisions?
> Is it fair to require a double majority?
> What are the safeguards provided by a double majority?

Summarise discussion points.
ACTIVITY 4

How do referendums help decision making?

**FOCUS QUESTIONS**

How does the referendum process allow for decision making?

What type of representation does the referendum process facilitate?

How does this representation differ from the House of Representatives and the Senate?

**RESOURCES**

- BLM 3 Representation
- Ballot boxes; ballot paper with the proposed change and provision to write: ‘Yes’ or ‘No’
- Class lists to use as electoral rolls
- Poster paper
- Animation Counting Your Vote
- Interactive Quiz 1 – Referendums – Do you get it?
- Interactive Voting Challenge – What do you know?

**Gathering information**

Inform students that they will participate in a referendum.

Provide a scenario, either one decided by the students on an issue of their choice, or the example provided. Other scenarios could be based on the desirability of school uniforms, privileges for final-year students, or another school-related issue.

**Scenario example**

The School Council has decided that they would like to introduce a school blazer which will have to be worn by all students to and from school. They believe that this will help profile the school in the area, create uniformity and look neater than the current mixture of jumpers, windcheaters and spray jackets being worn. Others believe that the introduction of the blazer will impose too great a cost on parents, especially for those with students in the final years of school. Blazer cleaning is costly and time consuming. Dirty blazers would not look good. Some believe that part of the charm of the school is that students have some choice in what they wear.

The introduction of the school blazer requires a change to the school uniform rules.

The school believes it is important for the school community to be involved in decision making. It has decided to hold a referendum. The question is: ‘A school blazer will be worn by all students to and from school. Yes or No?’

Ask students to summarise reasons for and against the proposal. They may add their own reasons as well. Discuss and summarise all responses on large poster paper. The paper will serve the role of the pamphlets that are distributed to all voters to help them make an informed decision.

Divide the students into five groups. It is not necessary that groups be even as states and territories do not have even populations. Four groups will be States and one group will represent a territory.
Ask the groups to choose a name for their state or territory. Label each ballot box with the chosen name.

Instruct students on how to participate in a referendum by following the AEC procedures as outlined in Running an election in your school – highlight compulsory voting and the secret ballot. The procedures for running an election and a referendum are similar, with the same rules applying to the franchise, electoral roll, secret ballot and polling officials. The procedures differ in the design of the ballot paper and the count.

Discuss with students what will be required for the referendum to pass. That is, three out of the four states will need to have voted ‘Yes’ plus a majority of all the class will have to have voted ‘Yes’. Display visually to reinforce the concept.

The ballot paper needs to state: ‘A school blazer will be worn by all students to and from school.’ Students need to write ‘Yes’ or ‘No’ in the square.

Identifying and analysing

Allow each state or territory to vote and place their ballot paper in their respective ballot box. Count the formal votes separately for each state and record the results. Record the states with a majority of ‘Yes’ votes. Is there a majority of states with a ‘Yes’ vote? Now recount the states’ votes together and include the territories’ votes. Has a majority of voters voted ‘Yes’ in the class? Record results on a poster showing ‘State’ and ‘National’ votes and result.

Making connections

Drawing on information from previous activities, discuss with students how citizens are represented in our federal system and how they can have their say.

Prompt questions could include:

> Who represents us in the Federal Parliament?
> How do we choose these representatives?
> What types of electorates and voting systems facilitate this representation?

> How do we have our say in changing the Constitution?
> Do we have a direct or indirect say in the proposed alterations to the Constitution?
> How does this differ from other ways of having our say?

Provide students with a copy of BLM 3 to complete based on this discussion. At this point, students can also be referred to the CD-ROM Animations and Interactives.

Presenting findings

Draw the class together and combine information from individual responses to create a class summary. This will also provide an opportunity to clarify understandings.

Ask students to provide summary statements about what they have learnt in this investigation, for example: ‘Both the House of Representatives and the Senate use the full preferential voting system to elect representatives’; ‘The Senate and the House of Representatives have different electoral configurations’; ‘Australian citizens have the opportunity to change the Constitution through the referendum process’, and so on.

Write statements on large poster paper and display findings. Instruct students individually or in pairs to design a pamphlet outlining the features of the different systems.

Going further

FOCUS QUESTIONS

How are citizens represented in Australia?
What are the relationships between the Constitution, Parliament, referendums, electoral systems and electoral configurations, and the voter?
How do the features of Australian democracy assist to represent us?

Display images used in the introductory activity and posters produced in the investigation. Revisit the original questions; check how they have been answered during the investigation.

Divide the class into small groups and ask each group to design a concept map showing the relationship between the Constitution, Federal Parliament, the House of Representatives, the Senate, referendums, elections, voting systems, members of parliament and Australian citizens. Encourage students to think about how they want to present concept maps, whether as illustrations, labels, sentences or computer graphics.

Display maps and allow each group to speak to their concept map explaining reasons for placement and links. Further discussion could take place around the commonalities and differences of each map.
Investigation
How are we represented?

In this investigation students research the history of arrangements created by the Constitution and the history of referendums in Australia as a means of changing the Constitution.

THE INVESTIGATION AT A GLANCE

<table>
<thead>
<tr>
<th>Background briefings for teacher reference</th>
<th>Australian Electoral Commission; Constitution; Democracy; Electoral division; Federation; Full preferential voting; House of Representatives; Referendum; Senate</th>
</tr>
</thead>
</table>
| Suggested classroom teaching time         | **Activity 1:** Who rules? (80 minutes)  
**Activity 2:** How does the Australian Constitution influence our lives? (120 minutes)  
**Activity 3:** How can we change the Constitution? (80 minutes) |
| Indicators of student achievement         | Describe the ways that rules help society to function in a fair and orderly way  
Identify the arguments for and against the federation of the Australian colonies  
Understand the way the Australian Constitution can be changed by a referendum  
Explain the role of the Australian Electoral Commission in administering the referendum process |

ACTIVITY 1
Who rules?

FOCUS QUESTIONS
How do rules allow us to function in society?  
How and why are rules formalised?  
What is a constitution?

RESOURCES
- Alice’s *Adventures in Wonderland* by Lewis Carroll  
- Multiple copies of the school rules  
- Multiple copies of a constitution, for example from a sports club  
- Poster paper
Gathering information
Begin by reading chapter 8 ‘The Queen’s Croquet-Ground’ from Alice’s Adventures in Wonderland. Set the scene by reminding students of the story. Some students will have knowledge of the book and could help set the context.

In discussion with students include the following questions:
> What happened in the chapter?
> Why was the croquet game so chaotic? What made it chaotic?
> Were there any rules? Were they followed?
> How did the Queen behave? Was her behaviour consistent?
> Did the playing cards have any say?
> Could you live in a world like this? What would be the problems?

Pose the question: ‘Why are rules important in a society?’ Record student responses on the board or poster paper.

Identifying and analysing
Instruct students to list examples of rules they follow in their everyday life. Ask whether they are informal (general consensus) or formally written, and the reasons for the rules. For example: Classroom (hands up to ask questions/to allow everyone to participate, to be heard); Community group, for example sports club (getting to practice on time, doesn’t waste others’ time, respects others). List this information under the headings in the table below.

Draw the class together and ask students to share their examples. Record examples on a class poster and display.

Making connections
Group students into pairs or small groups and provide each with a copy of the school rules and the selected constitution. Instruct students to analyse the documents according to their purpose, who they are directed to, areas covered, mechanisms for change, format and language.

Draw the class together. Discuss the analysis and record responses under the table categories.

Presenting findings
As a class compare information recorded, discussing commonalities and differences between documents. Summarise findings in the following statements:
> Rules provide ........
> A constitution provides ..........

Display statements.

ACTIVITY 2
How does the Australian Constitution influence our lives?

FOCUS QUESTIONS
How has our past influenced the Australian Constitution of today?
How does the Australian Constitution provide the framework for our society?
What are the federal arrangements provided by the Constitution?
Why is it important to protect State rights and how are they protected?

RESOURCES
• BLM 4 Provisions of the Constitution
• Interactive Quiz 1 – Referendums – Do you get it?
• Interactive Quiz 2 – The Constitution – Are you a whiz?

Gathering information
Explain to students that the six British colonies of Australia joined to form the Commonwealth of Australia, with these colonies becoming the six states of the new Federation. The Australian Federation was proclaimed on 1 January 1901. The colonies had been self-governing, making laws for their own territories. In the 1890s there had been much debate about whether the colonies should join together or remain separate. Different colonies had different opinions; people within colonies had different viewpoints. There was no uniform point of view, with a range of reasons on both sides of the argument.
Throughout the 1890s debate raged. A series of conventions was held to debate these issues, and finally a draft constitution was agreed upon. The draft constitution was submitted to the people of each colony in referendums. The people of the six colonies voted ‘Yes’ to federate under the Australian Constitution. When agreed to by the people, the Constitution was taken to the British Parliament. Queen Victoria signed the Commonwealth of Australia Constitution Act into law. This Act took effect on 1 January 1901.
Divide the class into two groups. Explain that one group will be taking the position of those opposed to Federation and the other for Federation. Encourage sub-groups, such as defence and trade, to research information on points of argument. These ‘experts’ can present the research on behalf of the larger group. Ask students to nominate who in their group will present each argument. Responses to arguments can be by anyone in the team.

Fig 19: The Commonwealth of Australia Constitution Act was passed by the Parliament of the United Kingdom in 1900, during the reign of Queen Victoria
Identifying and analysing

Select two teams of four members each to argue opposing views. Use the following modified debating model to debate the issue. Numbers indicate the order in which speakers present their case.

<table>
<thead>
<tr>
<th>IN FAVOUR OF FEDERATION (AFFIRMATIVE CASE)</th>
<th>AGAINST FEDERATION (NEGATIVE CASE)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 First speaker presents first argument in favour</td>
<td>2 First speaker presents first argument against</td>
</tr>
<tr>
<td>3 Second speaker presents second argument in favour</td>
<td>4 Second speaker presents second argument against</td>
</tr>
<tr>
<td>5 Third speaker presents third argument in favour</td>
<td>6 Third speaker presents third argument against</td>
</tr>
<tr>
<td>7 Fourth speaker rebuts the opposing side’s arguments and sums up the arguments in favour of federation</td>
<td>8 Fourth speaker rebuts the opposing side’s arguments and sums up the arguments against federation</td>
</tr>
</tbody>
</table>

The remainder of the class can take notes during the debate and score the teams on criteria such as content, relevance and performance of individual speakers. A show of hands at the end can be used to decide which team presented the better case. Alternatively, the teacher may use the board to record points made during the debate and adjudicate the result.

Follow up by discussing the importance of the colonies maintaining their voices in the new federation.

Jigsawing information from the previous debate instruct students to complete the following table:

<table>
<thead>
<tr>
<th>FEDERATION</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Advantages</td>
<td>Disadvantages</td>
</tr>
</tbody>
</table>

Draw students’ attention to the fact that the colonies’ respective franchises applied in the Federation referendums. This meant that men over the age of 21 and women over 21 in South Australia and Western Australia could vote. Women in Victoria, New South Wales, Tasmania and Queensland did not have a voice. With some exceptions, Indigenous Australians also did not have a vote.

Making connections

Group students in pairs. Provide students with a copy of BLM 4. Using information from BLM 4 instruct students to summarise in their own words the provisions outlined. Draw the class together and discuss provisions made under the Constitution, for example federal arrangements, bicameral system, terms of office, state and federal responsibilities and division of powers. Also discuss with students why they think the people of the colonies were willing to accept the draft constitution. How were their rights protected? Summarise discussion points on poster paper.

Presenting findings

Organise students into pairs or small groups. Instruct students to draw on information from the debate and the provisions of the Constitution to present a persuasive case for adopting the Australian Constitution. This could be presented orally, as a role-play or in graphic form (such as a cartoon or poster).
ACTIVITY 3
How can we change the Constitution?

FOCUS QUESTIONS
How are state and federal rights protected under our Constitution?
How does the referendum process allow for both the states and the nation as a whole to have a say?
How does the Australian Constitution remain relevant in contemporary society?
What is the role of the AEC in the referendum process?

RESOURCES
• Referendums
• 1999 Republic referendum: www.australianpolitics.com/topics/republic (Topics>Republic Vs Monarchy)
• www.peo.gov.au (Learning>Fact sheets>Referendums and Plebiscite)
• www.aph.gov.au (Publications/Library Publications>Research Papers>Constitutional Referenda in Australia)
• Poster paper
• Interactive Quiz 1 – Referendums – Do you get it?

Gathering information
Explain to students that the Australian Constitution is a living document. Display a copy of the Constitution for students and give them the opportunity to examine it. The Constitution of Australia was written over 100 years ago, and society has changed dramatically since that time. The writers of the Constitution provided a mechanism for change, to deal with situations that were unforeseen at the time of its writing. Section 128 of the Constitution provides the framework for changes to the Constitution. Only the citizens of Australia can alter the Constitution through the process of a referendum. Since Federation there have been 44 proposals for constitutional change put to the Australian electors but only eight have been approved. For a referendum to be successful and become law, a double majority of electors must approve the proposed change: a national majority of electors from all states and territories; and a majority of electors in a majority of states (at least four of the six states).

Fig 20: Australia’s Constitution
In 1999 two proposed laws to change the Constitution were put to eligible voters. One was to alter the Constitution to establish the Commonwealth of Australia as a republic and the other was to alter the Constitution to insert a preamble.

Divide the class into six groups; each group is to research one of the following:

- The ‘Yes’ position for Constitution Alteration (Establishment of Republic)
- The ‘No’ position for Constitution Alteration (Establishment of Republic)
- The ‘Yes’ position for Constitution Alteration (Preamble)
- The ‘No’ position for Constitution Alteration (Preamble)
- The results of each of the referendums
- The role of the AEC in conducting the 1999 referendums.

Explain to students that they will be the ‘experts’ in their area and will be presenting to the rest of the class. Groups may choose the medium of presenting the information. This could include role-plays, speeches, Yes/No posters, diagrams, PowerPoint™ presentations and flow charts.

**Identifying and analysing**

Drawing on information presented by each group, discuss with students:

- How do referendums give Australian citizens a voice?
- What is the importance of the double majority? Why do you think the double majority is required?
- How does our system of referendums protect our Constitution?
- Do you think it is too difficult to change the Constitution?
- Can you think of other ways that would allow us to change our Constitution in a fair and responsible way?
- What problems do you think could arise if referendums were not administered by an independent statutory body?

**Presenting findings**

Instruct students in pairs to design a ‘report card’ to evaluate and assess the Australian Constitution based on agreed rubrics. They might consider such criteria as relevance in contemporary Australia, mechanisms for change, protection of State and federal rights, and representation. Provide an opportunity for students to present their ‘Australian Constitution report cards’ to the class.
Referendums – double majority

To change the Australian Constitution, each proposed alteration must be approved by a double majority of voters in a referendum

A referendum is passed when:

- A national majority (more than half) of voters from all states and territories vote ‘Yes’.
- A majority (more than half) of voters in at least four of the six states vote ‘Yes’.

The votes of people living in the ACT, the NT and any of Australia’s external territories count towards the national majority only.

A referendum is not passed when:

- A national majority (more than half) of voters from all states and territories vote ‘No’.
- A majority (more than half) of voters in at least three states vote ‘No’.
- A majority (more than half) of voters in at least three states vote ‘Yes’.

Representing everyone!
Representation

Interesting facts I learnt about the Senate:

Interesting facts I learnt about the House of Representatives:

Interesting facts I learnt about referendums:
Provisions of the Constitution

CHAPTER 1: THE PARLIAMENT

Section 1: Legislative power
The legislative power of the Commonwealth shall be vested in a federal parliament, which shall consist of the Queen, a Senate and a House of Representatives, and which is hereinafter called ‘The Parliament’, or ‘The Parliament of the Commonwealth’.

Section 7: The Senate
The Senate shall be composed of senators for each state, directly chosen by the people of the state, voting, until the parliament otherwise provides, as one electorate ...

Until the parliament otherwise provides there shall be six senators for each original state. The parliament may make laws increasing or diminishing the number of senators for each state, but so that equal representation of the several original states shall be maintained and that no original state shall have less than six senators.
The senators shall be chosen for a term of six years, and the names of the senators chosen for each state shall be certified by the Governor to the Governor-General.

Section 8: Qualification of electors
The qualification of electors of Senators shall be in each state that which is prescribed by this Constitution, or by the parliament, as the qualification for electors of members of the House of Representatives; but in the choosing of Senators each elector shall vote only once.

Section 15: Casual vacancies
If the place of a senator becomes vacant before the expiration of his term of service, the Houses of Parliament of the state for which he was chosen ... shall choose a person to hold the place until the expiration of the term ...

Where a vacancy has ... occurred in the place of a senator chosen by the people of a state and, at the time when he was so chosen, he was publicly recognized by a particular political party as being an endorsed candidate of that party ... a person chosen or appointed under this section ... shall, unless there is no member of that party available to be chosen or appointed, be a member of that party ...

Section 24: Constitution of House of Representatives
The House of Representatives shall be composed of members directly chosen by the people of the Commonwealth, and the number of such members shall be, as nearly as practicable, twice the number of the senators ...

Section 27: Alteration of number of members
Subject to this Constitution, the parliament may make laws for increasing or diminishing the number of members of the House of Representatives.
Provisions of the Constitution

Section 28: Duration of House of Representatives
Every House of Representatives shall continue for three years from the first meeting of the House, and no longer, but may be sooner dissolved by the Governor-General.

Section 30: Qualification of electors
Until the Parliament otherwise provides, the qualification of electors of members of the House of Representatives shall be in each State that which is prescribed by law of the State as the qualification of electors of the more numerous House of Parliament of that State; but in the choosing of members each elector shall only vote once.

Section 34: Qualifications of members
Until the Parliament otherwise provides, the qualifications of a member of the House of Representatives shall be as follows:

i. He must be of the full age of twenty-one years, and must be an elector entitled to vote at the election of members of the House of Representatives, or a person qualified to become such elector, and must have been for three years at the least a resident within the limits of the Commonwealth as existing at the time when he is chosen;

ii. He must be a subject of the Queen, either natural-born or for at least five years naturalized under law of the United Kingdom, or of a Colony, which has become a State, or of the Commonwealth, or of a State.

Section 51: Legislative powers of the Parliament
The Parliament shall, subject to this Constitution, have power to make laws for the peace, order, and good government of the Commonwealth with respect to:

i. Trade and commerce with other countries, and among the States ...

v. Postal, telegraphic, telephonic, and other like services;

vi. The naval and military defence of the Commonwealth and of the several States, and the control of the forces to execute and maintain the laws of the Commonwealth ...

xii. Currency, coinage, and legal tender ...

xv. Weights and measures ...

xxi. Marriage ...

xxiii. Invalid and old-age pensions ...

xxiv. The service and execution throughout the Commonwealth of the civil and criminal process and the judgments of the courts of the States ...

xxvi. The people of any race, for whom it is deemed necessary to make special laws;

xxvii. Immigration and emigration ...

xxix. External Affairs ...
Provisions of the Constitution

CHAPTER 3: JUDICATURE

Section 71: Judicial power and Courts
The judicial power of the Commonwealth shall be vested in a Federal Supreme Court, to be called the High Court of Australia, and in such other federal courts as the Parliament creates, and in such other courts as it invests with federal jurisdiction. The High Court shall consist of a Chief Justice, and so many other Justices, not less than two, as the Parliament prescribes.

CHAPTER 8: ALTERATION

Section 128: Mode of altering the Constitution
This Constitution shall not be altered except in the following manner: The proposed law for alteration thereof must be passed by an absolute majority of each House of the Parliament, and not less than two nor more than six months after its passage through both Houses the proposed law shall be submitted to each State and Territory to the electors qualified to vote for the election of members of the House of Representatives ...

And if in a majority of the States a majority of the electors voting approve the proposed law, and if a majority of all electors voting also approve the proposed law, it shall be presented to the Governor-General for the Queen’s assent ...
