 Who does she think she is? A woman's place is clearly in the home! Who does she think is going to look after the children? Vote "No" women voting!!

 It is only right that every person should have a say in making those laws which affect all. I hope for the time when women will have their fair place and fair share of power, and when all shades of opinion can find a hearing in the halls of Legislature.

 Women deserve to be able to vote for a government that is making decisions that include us!

 It's an arbitrary and unjust Government which compels its support from those whose will in relation to it is never consulted. That as women assist in maintaining the Government they have a right to say how & by whom they shall be governed, in other words-to the vote.

 The Archbishop of York, William Thomson declared that "the world was finding out that women had equal rights with men." The discovery should be a ripe one; "the world" has taken a good many centuries in making it!

 "Set them free!" Pressure mounts on police as community calls for arrested suffragette protesters to be released.

 #WomensSuffrage would abolish soldiers and war, also racing, hunting, football, cricket and all such manly games. Are we going to allow women who would sap the very foundation of a nation to have votes?

 A sign at the #WomensSuffrage protest this morning in Melbourne. What kind of blasphemous fool would allow such disrespectful people to stand to represent our nation? "No self-respecting woman" indeed! Ridiculous! These women receive no support from me!

 Seriously Elmer? These women are intelligent & hard-working, & feel it absurd 2 continue 2 support governance that refuses 2 acknowledge them. This is about seeking change in order 2 be recognised! Loud, lazy & lawless indeed!?! How about scrupulous, strenuous & smart!

 I'm just as smart as any man and plenty more educated than a lot of them too. It's absurd to think I'm not smart enough to understand politics!

 FACT: A woman's brain is smaller than a man's brain. Therefore they are incapable of understanding complex political issues.

Doctors study female brains—you won't believe what they find!
